	Deep Navy Slate Card / Surface	`#1A2433`	26, 36, 51	216°, 32%, 15%	Containers, dashboard cards, modal dialog panels

2. CSS Gradients & Code Snippets

Signature Logo Mark Flow:

```
background: linear-gradient(135deg, #16B9FE 0%, #AF6AFB 50%, #3FEDBA 100%);
```

Cognitive Focus Glow (ADHD Mode):

```
background: linear-gradient(135deg, #16B9FE 0%, #AF6AFB 100%);
```

Calming Care Glow (Alzheimer's Mode):

```
background: linear-gradient(135deg, #16B9FE 0%, #3FEDBA 100%);
```

3. Mode-Specific Design Guidelines

Alzheimer's Mode (Low Cognitive Load)

Emphasize high contrast with Midnight Obsidian (#131B26) background and Turquoise Mint (#3FEDBA) for confirmations. Buttons should be large, clear, and reassuring with simple icons to reduce anxiety.

ADHD Mode (Focus & Flow)

Utilize Orchid Violet (#AF6AFB) for single-task focus timers and progress bars. Avoid flashing animations; use gentle ambient glow indicators to guide attention without overwhelming.
